Powering

THE NEXT GENERATION OF DIGITAL MEDIA.

Right now.

BIA
Bilateral Interconnect
Agreement

Agreement	Exchange of Public IP traffic with commercial levers to ensure growth and high performance with parity
Commitment	Long-term network partnership with evergreen provisions globally
Equality	Ratio flexible, all traffic is treated equally
Fairness	Charge net sender for only volume above ratio (overage), while allowing growth
Quality	"Peering" routes: Transit customers only expanding reach and breadth
Growth	Augment ports based on growth rates to ensure high quality via adequate capacity (as needed of course)
Performance	Optimize locations/markets to maximize performance, add markets as needed
